Periwinkle Circle Report – February 2, 2026

.

The January 22, 2026, meeting of the Periwinkle Circle visited the Lighthouse Art Center in Tequesta. The Center serves as both an art gallery, featuring rotating exhibits, and an art school that offers instruction in painting and various other art subjects. There is workshop rooms equipped for artists and hobbyists, including facilities for stained glass, metalwork, and more. The highlight of the tour was an insightful presentation by the exhibit's curator. He encouraged attendees to look beyond the surface of the art and consider what the artist is communicating to the viewer. The featured exhibit, themed "Cats and Hamburgers," showcased unique and imaginative interpretations, providing a variety of perspectives and artistic viewpoints.

After the tour, the Circle met for lunch and discussed the role of the Circle in the upcoming Secret Garden Tour.
