

GUIDED TOUR OF U.S. SUGAR FARMS AND REFINERY
Friday, January 26, 2024
Clewiston – 7:10am – 3:30pm

See how by blending sustainable farming practices with advanced technology, our Florida farmers protect the land and preserve our natural resources yet produce the best sweet corn, oranges, and sugar cane in Florida. U. S. Sugar farms in Glades, Henry, Palm Beach and Marti Counties use minimal fertilizer and pesticides to feed us all and provide jobs for thousands.

We will meet our comfortable Coach bus at Halpatiokee Park, and be driven to Clewiston, and have a guided tour of the fields to the refinery mill that produces our sugar. We will have a restaurant lunch, and be driven back to Halpatiokee Park, **all at NO COST.**

There will be opportunities to take short walking tours, but most of the time we will be listening to our tour guide on the comfortable bus.

No fee for the trip or lunch, but \$5 is requested to thank the tour guide and bus driver. You may want to tip something for lunch, too.

REGISTRATION DEADLINE: Thursday, January 18, 2024
