

A bald eagle is perched on a thick, brown pine branch. The eagle has a white head and neck, a yellow beak, and dark brown feathers on its body. The pine tree has many green, needle-covered branches extending upwards and outwards. The background is a clear, light blue sky. The text 'Arbor Day' is written in a large, bold, black font on the right side of the image.

Arbor Day

We celebrate by planting a tree each year at a park, garden or other location to celebrate Arbor Day. Junior Gardener Programs will be responsible for the planting of an Arbor Day tree at their school sites. Members are asked to report all trees planted in public and private areas.
