

Garden Club of Stuart
Periwinkle Circle
Monthly Report
January 2025

The members of the Periwinkle Circle January Meeting was a tour off the facilities at Project Lift. Project Lift provides mental health services to troubled teenagers. The “treatment” is assisted by vocational, “hands on” vocational training in woodworking, welding, auto and marine equipment repair, metal work, etc. An amazing facility and practical training for their students! The Circle gave Project Lift a contribution of \$100.00.

After the Tour, we met at Manero’s for lunch and a meeting. We discussed the finances of the Circle. Gail attended the January Executive Meeting and talked about some of the topics that were discussed. The President must appoint a Chair of the Nominating Committee; however, it appears that as no one is willing to serve. The Nominating Committee would appoint members who are willing to serve as President and the other officers. The President is seeking member to serve various positions on the Board. If the President is unable to appoint as President and the other officers. the Garden Club could cease to exist. The Garden Club needs members who are willing to serve in these positions,
