

Programs, Workshops & Field Trips
1st VP & Chairman Mary Jane DuCoin

April 1, 2024

Garden Club of Stuart, Inc.
April 1, 2024 Board Meeting
Program Chair's Report

For our April Annual Spring Luncheon, we are fortunate to have as our speaker Dr. Zack Jud, a Marine ecologist whose research has been focused on the Indian River Lagoon Estuary. We will hear his remarks on the causes and hopefully what we can do to help stop the algal blooms on our local waterways.

Our programs are scheduled for the 2024 - 2025 Club year, so look forward to some exciting presentations. We have one field trip planned so far that will coordinate with the January program. Hopefully we can have workshops that will enhance our members' skill in the art of flower design.

Respectfully submitted,

Mary Jane DuCoin
