

Satin Leaf Circle  
February Report

Satin Leaf Circle presently has 23 members our January meeting was held on January 7. We had five possible new members attend, which would bring us up to 28 members. We have possible other members that are interested in a circle so we have grown considerably this year. We have a cut off limit of 30.

We met at Ali Hookers home and had a meeting and tour of her garden. The tour was led by Diane Kimes, who is a master gardener and did plant identification at Al's yard.

We changed one of our charities and added the treasure Coast wildlife Center next month of attending a lecture at the sheriffs office on Gardening and safety and then we are going on an airboat ride in the month of March

Presently, we are preparing for the Secret Garden tour, the appreciation, wine and cheese celebration in the evening before the tour and the viewing of two gardens if people have purchased a ticket and are volunteering. Satin Leaf Circle is a very active circle and it's a joy being the president because these ladies are very active and efficient.

Respectfully submitted:  
Karen Bonney, president  
Satin Leaf Circle
