## Garden Club of Stuart Ways & Means Report

Our January meeting was held January 13, 2025 hosted by the Tabebuia Circle. The table decorations were fresh greens with "snow" and a winter scene handmade by the circle members and looked beautiful. I think the circle forgot about ways & means as did the rest of the membership! It was slim pickings and lucky for us we had things left over from the previous months. We made a total of \$ 87. We really should do better than that.

In my previous report I stated we had brought in over \$200 each month October, November and December. Communicating the need to bring in items for sale is very important and for the circle president to remind their members to donate something to sell.

The members at large are hosting the February meeting.
