Three members of the committee met to discuss ideas for the end-of-year luncheon. We are excited about the theme and looking forward to continuing planning for this event. Several members approached me at the last meeting to volunteer to help with this event and I want to thank them. We will need plenty of help planning and executing what will be a great luncheon, so if there is anyone else who has a creative interest in helping us, please let me know.

I have been working on the menu, and we are once again going to have the filet of beef due to its popularity, but thought we may change the fish selection to flounder stuffed with crabmeat in lieu of the salmon. Of course, we will also offer a vegetarian option for anyone wishing that choice. I will have flyers available for our Garden Club of Stuart monthly meeting and will have the tickets printed and ready for our December meeting

I have also been working on the tentative budget and will submit that to the board on Monday.
