

Programs, Workshops & Fieldtrips
1st VP & Chairman Mary Jane DuCoin
November 6, 2023

Garden Club of Stuart, Inc. - November, 2023 Board Meeting

Program Chair's Report

- For the November 13th General Meeting we will enjoy a discussion about the plight of the Monarch Butterfly by Jim West. He will tell us how we can help to support this butterfly population. He may also bring some plants we can buy.
- Sign up sheets for the field trip on Friday November 17th to the Ripple stormwater treatment area will be available again at the November General meeting. So far we have 7 people signed up. The sign up sheet for the field trip on Friday, January 26^h to the US Sugar farms and refinery will be available at the next meeting. We need 25 to 50 people to sign up for that event, which includes a bus tour and a restaurant lunch at no charge. The December workshop is filled, with a waiting list.
- Barbara May had asked that her honorarium for speaking last month be a donation to Wekiva, we obliged her.
