### **GARDEN CLUB OF STUART WAYS & MEANS REPORT**

The Garden club's March 20<sup>th</sup> meeting was very busy for Ways & Means. Allamanda Circle did an amazing job bringing in items to sell. They made \$ 170.00 for the club.

The 2022/2023 season brought in a total of \$1374.10. Well worth the effort of finding things around our homes to donate to the ways & means table. Plants are the best sellers yet so many things brought in were sold.

Going forward to next season, it has been suggested to hold on to the items not sold for the following month. This has been tried and the person in charge has the task of boxing up what is not sold, storing it for a month and bringing it back to garden club to sell again. I moved from a large home to a small condo and cannot store any items left from month to month. I agreed to be chair next season and am now looking for a co-chair willing to possibly store unsold items or bring to the garden club's storage facility. If you or someone you know from garden club may be interested in helping please reach out to me.
