

## Scholarship Annual Report 2022

The second checks for the fall semester were mailed to five students. Of the seven original students chosen, one had joined the military leaving six recipients. Additionally, one of the six remaining did not enroll in the fall semester leaving just the five. Therefore, five checks for \$1,000 were sent.

Five students have been selected for this year and have been notified that they and one parent will also be our guest at the Annual Luncheon and receive the first check for \$1,000. Also, a student has been notified that he will receive the Cyndy Trossbach Outstanding Student award also hopefully accompanied by a parent.

The selection process is difficult with so many amazing students to choose from. However, this year the committee is recommending that each student and parent be seated with a circle or members at large. This will enable the club members to become acquainted with at least one of the students in a more meaningful way. I have found that it is inspiring to meet these young people and we want to share them. (it's also awkward to seat the students and parents at a table by themselves, they don't know each other)

The committee, Lee Rush, Karen Vaina and myself will attend the awards nights at each of the four schools, to take place in April.
