

GCS Board Meeting October, 2022

Memory Lane Report

- During the summer of 2022 Audubon of Martin County had a contractor do a clean-up of invasive plants surrounding the water retention ponds which was followed with new plantings of native grasses and other plants along the water's edge.
- Audubon has placed a trash can in the vicinity of the picnic tables for visitors' convenience. The cans are emptied twice weekly by Audubon.
- A locked gate was installed to secure the well pump enclosure, wheel barrow and water hose. This chairman was given a key to the lock.
- The picnic tables have been recently painted by Audubon. And, there is no update on the proposed pavilion at this time.
- Our order for about two dozen new plant ID plaques has been delayed due to supply problems at Budget Signs & Trophies.
- The new season has begun with this chairman doing a general cleanup mainly along the walking paths.
- Circles are once again welcome to attend to their gardens at Memory Lane.

Rosita Aristoff

Memory Lane Chairman
